**Stay Connected.
Stay Local.**

The logo features a stylized red 'M' above the word 'Connect' in a bold, dark blue sans-serif font.

➔ MLConnect for Home

Essential | \$49.95

300 Mbps of symmetrical access to enjoy streaming, downloading video, music, pictures, and of course, surfing the internet.

Deluxe | \$79.95

1 Gig access (1000 Mbps) for 100x faster service than your average internet speed when your gig-enabled device is plugged into the gateway.

Voice | \$24.95

(Plus tax, universal phone charges, etc.) Unlimited local and long distance within the Continental U.S. with features including call waiting, caller ID, call forwarding, and voicemail. Option to keep current number.

**Additional lines available.*

“Their high-speed residential internet service has truly helped bring our communities into the 21st century by making reliable internet readily accessible, where it was once limited or unavailable. The connection is fast and consistent, and their local subscriber support is responsive and ready to help whenever needed.” —*June Horner, Hickman County MLConnect subscriber*

➔ MLConnect for Business

Essential | \$59.95

200 Mbps of symmetrical access for all your basic internet needs, including email, web browsing, video streaming and communications. Includes Wi-Fi router.

Pro | \$149.95

Do you have your own network equipment? **500 Mbps** symmetrical internet access with static IP address provided and guaranteed prioritization throughout the network.

Enterprise | \$249.95

Does your business rely on the internet to operate? **1 Gig** (1000 Mbps) of symmetrical internet access with static IP address provided and guaranteed prioritization throughout the network.

Voice \$29.95

Unlimited local and long distance within the continental U.S. with tons of features including call waiting, caller ID, call forwarding, and voicemail. Keep your own number option. **Additional lines available.*

➔ Backup Battery Device

To avoid internet or phone interruptions during a power outage, many devices require a **battery backup** to keep their internet connection active. This is especially helpful for phones to maintain the ability to contact 911 during an emergency.

MLConnect offers a **battery backup purchase option** which provides temporary power to your internet equipment when electricity is interrupted. It keeps essential devices, such as the Optical Network Terminal (ONT) and router, operating for a limited time. The backup battery offered through MLConnect has been tested for **maximum performance** with our equipment.
